

# Government's strategy to revitalise and double India's exports by 2025

**Commodity and territory-specific strategy is being prepared for items like gems & jewellery, leather, textile & apparel, engineering sector, electronics, chemicals & petrochemicals, pharma, agri & allied products and marine products**

AAT News Service

HERE is a need for a strategy for revitalising and doubling India's exports by 2025. This is necessary in view of the challenges like uncertainty of global trade, rigid approach of banks affecting availability of credit, high logistics cost and productivity standards & qualities, said Suresh Prabhu, Union Minister for Commerce & Industry and Civil Aviation.

port Promotion Councils and divisions of the ministry.

The minister has already held two meetings with key ministries for preparing sectoral export strategies which are being finalised. The Federation of Indian Export Organisations (FIEO) has done a study identifying 100 billion exports in traditional, new markets and products. The Export-Import Bank of India has conducted market research and draft export strategy is being

been online integrated with customs IceGate and mandatory documents required for exports and imports have been reduced to three each.

The Import Export Code (IEC) has been integrated with PAN and MoU signed with GST Network for complete integration. The electronic bank realisation certificate (e-BRC) system has been shared with 14 state governments for quick tax refunds and MoU has been signed with

pared for the services sector in order to achieve broad-based growth instead of the existing predominance of IT-ITeS, diversification of services exports across geographical territories, sensitisation of the states to formulate new structures, policies and action plans for services sector and promotion of India as a services hub.

The Agriculture Export Policy is in the process of being finalised, after incorporating stakeholders' comments. Commodity and territory-specific strategy is also being prepared for items like gems & jewellery, leather, textile & apparel, engineering sector, electronics, chemicals & petrochemicals, pharma, agri & allied products and marine products.

Territory-specific strategy will cover North American Free Trade Agreement (NAFTA), Europe, North East Asia, ASEAN, South Asia, Latin America, Africa and WANA, Australia, New Zealand, and Commonwealth of Independent States.

Apart from traditional markets, India must also look at boosting trade with smaller countries and explore new territories like Africa which has 54 countries, but accounts for only 8 per cent of exports from India.

The minister exhorted exporters to not miss the opportunity presented by China's consumer market and make the most of the world's mega import expo being held in China in November 2018.

GST Network for integration of e-BRC with GST Network. State governments have been provided access to DGCIS export data in real time.

Union Cabinet has approved the proposal of Department of Commerce to give focussed attention to 12 identified 'Champion Services Sectors' for promoting their development, and realising their potential.

Special strategy is being pre-

prepared. India had acceded to WTO's TFA (Trade Facilitation Agreement) in April 2016 and action plan containing specific activities to further ease out the bottlenecks to trade has been prepared.

To facilitate transparency through Ease of Doing Business and IT initiatives, the Directorate General of Foreign Trade and special economic zone have

While chairing a meeting of different exports' stakeholders and Ministry of Commerce & Industry officers, the minister said that exports create jobs, bring in foreign exchange and validate India's international competitiveness. The Union Minister of State for Consumer Affairs, Food and Public Distribution, C R Chaudhary will be the chairperson of this mission and will regularly review the work of different Ex-
