Central government promotes agri start-ups in J&K region

Lavender cultivation have been explored at a large scale in the Kashmir Valley in and around Gulmarg and in Doda and Reasi districts in Jammu region

AAI News Service

The Central government has made concerted and technology-based efforts to promote agriculture sector for young start-ups in the Jammu & Kashmir region. Farmers and the agriculturalists were largely dependent upon the mood of climate and vagaries of nature for cultivation. In the last two years, new areas like Lavender cultivation have been explored at a large scale both in the Kashmir Valley in the areas around Gulmarg, as well as in the Jammu region in Doda and Reasi. said Jitendra Singh, Union Minister of State for Science and Technology, Earth Sciences, and Public Grievances. The idea is to make the entire area into an ecosystem of agricultural floriculture and farms, organised jointly by Council for Scientific and Industrial Research (CSIR) and Sher-e-Kashmir University of Agricultural Sciences & Technology (SKUAST), the erstwhile said, this is for the first time in the last few years the Central government has encouraged 100 per cent salaried government jobs in every youth.

A sustained awareness campaign needs to be launched among the youth and their parents to educate them that there are much more lucrative and employment opportunities available through self-employment and non-agricultural options and, therefore, they should not be led to waste their time and energy in protecting for government salaried jobs. Reiterating that farming is no longer the farming of yesterday, Mr Singh said, said this is actually an agricultural technological and a business start-up who has the option of making handsome profits using new technology and provisions introduced in the agricultural sector by the Central government. The Central government through CSIR is providing all relevant financial and technical support for new modes of cultivation, multi-specialty, and hybrid farming which have the capacity to double farmers’ income by 2022. During the occasion, Mr Singh also highlighted the importance of Skilled and Kisan. India’s first-ever national ‘Agricultural Mission’ was launched in 2018.

THE CULTIVATION OF LAVENDER

Lavender is a hardy evergreen plant that is perfect for USDA Zones 6-10. It thrives in full sun, but it will grow in light shade. Lavender is drought-tolerant, which makes it perfect for low-maintenance gardens. It's one of the most widely used essential oils and has a variety of uses, from aromatherapy to culinary applications. Lavender's fragrance is sweet and floral, with notes of honey and spice. It's also known for its calming properties, making it a popular choice for relaxation and stress relief.
